<u>Carolina Lakes Weekly Security Blotter -- Reported to POA Office</u>			
1			
		12:30 hrs	02/17/2012--Many residents called the POA office to report smoke that appeared to be coming from Lakeside Manor. Security was notified and asked to inquire about the source then report back to the POA office. At approximately 12:30 - 13:00 security verified that 3 fire trucks had already entered Carolina Lakes and were in route. Security did verify the source of smoke / fire was from a controlled burn. Now, the rest of the story—after further inquire by Community Mgr, a construction contractor did obtain a burn permit from Harnett County although it is prohibited within Carolina Lakes. Furthermore, the controlled burn was not coordinated with the Spout Springs Fire and Emergency Services or CLPOA prior to the burn.
